

Dataset Information

Title

Route 66 New Mexico Images

Short Description

Historic Route 66 photographs from New Mexico's Cultural Heritage Institutions.

Full Non-Technical Description Description

This dataset contains descriptive metadata and the online address of 207 historic photographs of Route 66 both in and around the Albuquerque, New Mexico area.

Taken by a variety of New Mexico photographers from the late 19th century through the latter 20th century, the images document the Route 66 highway outside of Albuquerque, and Central Avenue inside Albuquerque City Limits. Subject matter is primarily architectural structures and roadside signs along the highway. The original photographs are held by the Center for Southwest Research at the University of New Mexico, the Palace of the Governors Photo Archive, and the Albuquerque Museum. The digital images are hosted on a collaborative educational website, New Mexico's Digital Collections (econtent.unm.edu).

Technical Description

The **csv** dataset file contains photograph titles, descriptions, and keywords that identify the subject matter. Original photographer and date of the original photographs are given where known. Copyright status and a contact for more information are also provided. See [Format Definition](#) (below).

cont'd

Format Definition

CSV

VALUE	DESCRIPTION
ID	Owner's identification or inventory number for the photograph
Title	Formal title given to the photograph
Description	Free text description of the subject matter and location of the photograph
Subject	Subject keywords to enhance search-ability of photographs
Creator	Photographer name
